

membership application

The Oceanography Society (TOS) was founded in 1988 to advance oceanographic research, technology, and education, and to disseminate knowledge of oceanography and its application through research and education. TOS promotes the broad understanding of oceanography, facilitates consensus building across all the disciplines of the field, and informs the public about ocean research, innovative technology, and educational opportunities throughout the spectrum of oceanographic inquiry. TOS includes members from all nations. Any individual, business, or organization interested in ocean sciences is welcome to join and to participate in the activities and benefits of the society. All members receive *Oceanography*, the Society's quarterly journal. Upon payment, members will receive access to all back issues of the magazine to which they are entitled for that membership period. All applications for membership are subject to approval by the Society's Membership Committee.

The membership period is January 1st through December 31st of each year. Upon joining, new members will receive access to back issues of *Oceanography* magazine for that membership period.

Benefits of Membership

- » Delivery of *Oceanography* magazine electronically and by regular mail
- » Discounted registration for TOS-supported scientific conferences
- » Access to job search tools and discounted job posting services in the TOS Career Center
- » Invitations to participate in TOS networking events at various scientific conferences
- » Opportunities for students to apply for support to attend conferences
- » Monthly delivery of *TOS News* and other announcements of community interest
- » Access to discussion groups and online social communities on oceanography-related topics
- » The right to vote for Council members and to express your opinion on all matters of interest to the Society
